YOUR STORY, YOUR SCREENS

FUNCTIONAL INFORMATION LEAFLET FOR DIGITAL SIGNAGE & IPTV

FEATURE: ADVANCED USER RIGHTS MANAGEMENT

With our Advanced User Rights Management system it is possible to define the access level of users to objects individually or in group by creating labels and granting access to user groups. Access levels include view, create, edit, delete or nothing. The Advanced User Rights Management system meets requirements for centralization or delegation of access in complex or large organizations.

1 Define your labels and user groups

2 Put these labels on any item in Oscart

3 Centralize or delegate access
