

FUNCTIONAL INFORMATION LEAFLET FOR DIGITAL SIGNAGE & IPTV

FEATURE: AUDIO & VIDEO STREAMING

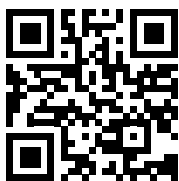

Impress your audience by showing a public or internal live video stream. Organize a kick-ass event where you can stream a sports, leisure or business event in real-time using Oscart's live stream widget. This widget is very simple to use: create a zone on your page where the stream should appear, enter the URL where the stream is hosted and publish the page to your screens.

- 1 Create a zone with the stream widget
- 2 Enter the URL in the properties field
- 3 Bring your live video or audio stream
