

**FUNCTIONAL INFORMATION LEAFLET FOR DIGITAL SIGNAGE & IPTV**  
**FEATURE: TOUCH (TACTILE ZONES)**

Impress and engage your visitors, customers or other audience by driving interaction with your digital touch screens. Selective zones on a page can be marked as tactile and linked with other pages. This way your touch screen can serve as an interactive digital signage booth or kiosk, bringing added value and engaging your audience.

- 1 Decide which zones are tactile
- 2 Link these zones with pages
- 3 Enjoy interaction of your screens
